ABOUT US

Banner Music is a full-service publishing, production and management company located on Music Row in Nashville, TN. Every artist is different so our processes revolve around the specific needs and goals of each artist.

LABEL SERVICES

Releasing a new project is exciting! Banner Music will help you every step of the way. We will help you launch your music to the world while also making sure your administration is handled correctly so that your project will be the very best it can be.

Here are the services we provide as part of our label services package:

- Set up ISRC and UPC codes
- Handle all licensing for your songs
- Pay out any royalties due
- Set up your account and get the song distributed through a digital aggregate
- Review sales reports with you with breakdowns of the income you are receiving from sales and streams
- Register the songs on the PROs
- Register the songs with the copyright office - both the work of the performing arts, and the sound recording (if you own the master).
- Create your profile and register your songs with Sound Exchange

Let Banner Music handle all the paperwork so you can focus on your artistry. We can also discuss and make recommendations for the promotion of your project. At the end of our work, you will receive a file containing the important project documents for your records.

Please contact victoria@bannermusic.com for a project quote.
